

## COMPANY OVERVIEW

iQ GovSolutions is a DBA of iQuasar LLC - an ISO 27001 and ISO 9001 certified company. With over two decades of business experience, we specialize in delivering secure, scalable, and mission-aligned Artificial Intelligence, Machine Learning, and intelligent automation solutions to federal, state, local, and commercial clients—empowering them to modernize operations, enhance decision-making, and drive measurable outcomes. Our generative AI solutions draft reports, summarize documents, and organize complex data with built-in safeguards and human oversight. Deployed in cloud or on-premise environments, our AI/ML experts ensure full compliance with HIPAA, NIST 800-53, and FedRAMP—delivering secure, scalable systems aligned with mission needs.
